---

## **PROFESSIONAL SUMMARY**

A motivated Frontend Web Developer with over 1 year of experience in building responsive, user-friendly web interfaces. Currently, I am expanding my skills into product design using Figma, focusing on creating intuitive and accessible user experiences from design to deployment.

## **SKILLS**

- Attention to detail
- Troubleshooting and problem solving
- Team Player and Collaboration
- Multi Tasking
- Exceptional Analytical, Critical thinking, Presentation and Documentation skills
- Effective communication (written and verbal)
- Receptive Training
- Microsoft Office Proficiency - (Excel, Word, PowerPoint)
- Frontend: HTML5, CSS3, Tailwind CSS, JavaScript.
- Design Tools: Figma (Basic - currently expanding skill).
- Tools: Git, GitHub, Netlify.

## **WORK EXPERIENCE**

### **720 Degree Innovation Hub – Abeokuta, Nigeria**

#### **Frontend Developer Intern (Feb. 2022 – Dec. 2022)**

- Developed custom, responsive websites using HTML, CSS, and JavaScript.
- Provided technical support and assisted in troubleshooting software issues for ongoing projects.
- Collaborated with the development team to brainstorm and prototype new features.
- Instructed students in web development fundamentals, focusing on debugging and cross-device compatibility.
- Represented the hub at MSME and tech talk events, delivering presentations on web technologies.

## **KEY ACHIEVEMENT**

- Built secure, customisable websites with an emphasis on performance and maintainability.
- Successfully guided students to independently debug code and build functional web pages for any device

## **EDUCATION**

### **Yaba College of Technology, Lagos State**

*HND in Computer Science (2024 - 2026)*

**Osun State Polytechnic, Iree, Osun State**

*OND in Computer Science (2019 -2021)*

## **PROFESSIONAL CERTIFICATION**

- ALX Software Engineering Program | Specialization:Frontend Development

## **CORE COMPETENCE**

- Service Management: efficient service management to execute given tasks and achieve goals.
- Complex Problem-solving: ability to identify complex problems and implement solutions.
- Team Player: ability to organize and establish support.
- IT skills: Trouble shooting.
